## PROJECTS

- Covi-Safe** Feb 2022 – May 2022
- It is a system that ensures that people are following COVID protocols.
  - The system checks for a mask and body temperature before allowing entry. Includes a people counter that helps in curbing overcrowding.
  - Software Used: Arduino IDE, Matlab GUI. Hardware Used: Arduino UNO R3, IR sensor, MLX temperature sensor, motor, buzzer.
- 'SaveMore' Application** Jul 2021 – Jan 2022
- A Python application that encourages users to cut down unnecessary spending by planning monthly budgets and setting goals.
  - Users can set up their accounts, enter their transactions, and get the status of their goals.
- Foot-Prints** Sep 2021 – Dec 2021
- A web-based crime record system to prevent the newcomers in a particular city from getting scammed.
  - Registered users can report crimes and get a list of crimes within any particular locality.
  - Technologies used: React JS, MongoDB, Mapbox API.
- College Website Redesigning** May 2021 – Nov 2021
- Improvising and maintaining the college website with a team of web designers on WIX.
  - Created the 'Placements' page and the 'Councils and Committees' pages by coordinating with different teams.

## ACHIEVEMENTS

- **Selected in Round 1** (top **165 teams out of 400+**) in **Myntra's Hackerramp** hackathon.
- Won **1st prize** at the NSS - 'Rashtriya Ekta Divas' **Speech Competition** at University Level.

## POSITIONS OF RESPONSIBILITY

- Placement Coordinator, Training and Placement Cell, UMIT** Mar 2021 – present
- Managing the placement activities of the college. Interacting with recruiters to generate leads for students and help them in the recruitment process.
- Student Council, Usha Mittal Institute of Technology** Sep 2020 – present
- Part of the Core Committee and headed the Sponsorship Department. As the core member, I hosted events, conducted workshops and was a medium between students and teachers.
  - As the Sponsorship Head, I pitched the college festival to different brands and generated capital for the college festival.
